

## Distance Learning

Computer Training Academy (formerly LTS Career Training) offers the most innovative Distance Learning Options

Computer Training Academy (formerly LTS Career Training) is the leader in virtual world training. This unique educational system allows you to train with scenario-based environments that replicate real world situations anytime, anywhere. Computer Training Academy offers flexibility and support from the beginning to the end of the certification process. Our unique approach to learning will provide you with the information you need for exam preparation and provide the scenario-based environments for the experience to build a strong foundation in your chosen courses of study.

As a student you receive a laptop computer with award winning Laptop Based Training (LBT), which includes the best instructional design and graphic learning systems, state-of-the-art simulations and exam preparation software to create an unparalleled learning experience. Also included is a set of authorized study manuals for the selected courses of study. You have the convenience of studying at your home or in an environment of your choosing, and when your schedule allows.

Computer Training Academy's revolutionary training products use "applied simulation" to give students hands-on experience with their courses of study. Certified professional support is available through e-mail, on-line support through student services and live using toll-free telephone lines.

Computer Training Academy programs are available worldwide and are proving successful as our students continue to pass certification exams, enhance current careers and migrate to new ones. We are proud to announce that Computer Training Academy is one of the top 10 Distance Learning Providers in the world.  
DISTANCE LEARNING HANDS-ON NETWORK ADD-ON: Distance Learning Students can add a 3 System pre-designed/pre-loaded Training Network to their Career Training Package. A Certified Instructor will set up One Server and Two Workstations to enhance your hands-on training experience.

(Distance Learning is not available in Washington State. Computer Training Academy (formerly LTS Career Training) does not do business in the state of Washington.)
