

About Us

ABOUT US

After years in the education industry and after seeing training school after training school fail to deliver what they promise, the team at COMPUTER TRAINING ACADEMY has developed the CTA5™ Delivery System and the STEP Certification Process. The combination of the CTA5™ Delivery System and the STEP Certification Process ensures that each individual student has their training delivered in the most desirable way for their individual learning needs and every student masters each individual concept both ACADEMICALLY and HANDS-ON before the next concept is even presented. YOU WILL GET CERTIFIED!!

CTA5™ Delivery System

- SEE IT - Learn material quickly and easily with clear text, rich graphics and engaging animations, integrated in a multi-media environment.
- HEAR IT- Attend the customized Certification Specific Lecture Series designed to insure preparation for certification and the ability to do the job.
- READ IT- Complete case scenerios that bring the real world into the classroom and prepare you for the certification exams with challenging hands-on tasks.
- WRITE IT- Writing is essential to reinforcing complex ideas in the mind and will help to more easily gain familiarity with the subject matter. Taking notes while working with your instructor and viewing the customized lecture series reinforces this process.
- DO IT- Practice complex operations in an open simulated environment without worrying about crashing your network and live in our state of the art networking labs. Detailed feedback will help you improve your performance and master the hands-on training. Most importantly, the academic training is supported through hands-on exercises that are completed in our state of the art training facility under the direction of certified instructors. Instructors are also available to answer your questions and assist you in your certification path.

Through the Computer Training Academy Delivery System every student has the ability to utilize all of the available learning modalities with each objective. This gives the student the ability to focus on the modality that best supports their learning process and progress through the courses mastering a concept at a time and passing each certification test before they start the next course. YOU WILL GET CERTIFIED!!

STEPTM Certification Process

Have you ever imagined a training program that is designed so that you can master each and every concept as you move through the course. How about a training program that you can never get lost in or left behind. The Computer Training Academy (formerly LTS Career Training) STEP Certification Process is exactly that. The process allows each student to move through the program at their own pace mastering each and every concept both academically and hands-on before the next concept is presented. The end result is complete certification and most importantly a thorough Hands-On and Academic training so you can do the job. YOU WILL GET CERTIFIED!!
