

News - Temecula Training Center

After a ton of hard work and what seems like endless delays the Temecula Training Center is finally open. For those of you that haven't had a chance to stop by and visit the training center, it is an amazing lab. Complete with all new carpet, paint, tables, chairs, Dell computer, LCD monitors and a new instructor. It is clean, quiet and a great place to get your work done. The facility is in the heart of Temecula and easy to get to. Located at 27715 Jefferson Ave Ste 105A, it shares the same parking lot as the Sizzler and the entrance is right next door to the Taste of India. We hope you will appreciate the hard work that went into the facility and take advantage of the lab as much as possible. Computer Training Academy Staff
